Due date: April 10, 1998

Chemgate Evaluation

As part of an effort to assess the effectiveness of the new multimedia classrooms and of the curricular activity taking place in them, we are asking you to fill out the following survey based on your experience in your "Chemgate" recitation this semester. Your contribution to this assessment effort is invaluable.

Once again, we value your input and thank you for your time and attention. All information you provide will be kept strictly confidential.

Social Security number __ __ __ __ __ __ __ __ __

Your sex (circle one): M F

Please indicate how strongly you agree or disagree with the following statements by circling the appropriate numerical rating for each statement.

5=strongly agree  4=agree  3=neutral or undecided  2=disagree  1=strongly disagree

9. I used additional support to complete the Chemgate exercises:
   a. Textbook for the class
   b. Other books
   c. Instructor in the Chemgate recitation
   d. TAs in the Chemgate recitation
   e. TAs other that Chemgate TAs
   f. Professor for the lecture aspect of the course
   g. Other people or sources

   5 4 3 2 1

10. I found the Chemgate exercises to be supportive and helpful for the:
   a. Content covered in regular recitation
   b. Content covered in chemistry lecture with the Professor.
   c. Content covered in the textbook for the class.

   5 4 3 2 1

11. I would like to have seen better integration of Chemgate recitation and Chemistry lecture.

   5 4 3 2 1

12. I utilize models (mental or written) when:
   a. I am studying the textbook for the class.
   b. I am studying my notes for the class.
   c. The Chemistry Professor lectures.
   d. I am in other classes besides science.

   5 4 3 2 1

13. I feel my understanding of atomic and/or molecular structure was enhanced by Chemgate recitation.

   5 4 3 2 1

Please respond to the following short answer items.

14. What, in your opinion, were the greatest advantages of learning chemistry with computer-based resources? What were the greatest disadvantages?

   advantages:
15. If you indicated that your understanding of atomic and/or molecular structure was enhanced by 3-D visualization, please explain how it was enhanced.

16. Other than the required Chemgate recitation hours, approximately how much additional time (in hours) outside of Chemgate recitation did you spend on the exercises?
   a. Exercise I: (Organic)
   b. Exercise II: (Thermodynamics)
   c. Exercise III: (Proteins)

17. If you indicated that you feel there will be a future benefit to having used computer technology, please elaborate on your answer. This includes both the computer, the molecular modeling software, and what was observed on the computer screen.

18. If you could choose again, would you choose the chemistry section that used computer-based resources? Why or why not?
